Client list

AECOM, Asia	Leightons Asia
African Gas & Oil Co (Kenya)	Lubrizol
Air BP	Manx Petroleum
Arqiva	Mobil Oil Company
Avin Oil (Greece)	Motherwell Bridge Services
BP Bovis	NuStar
BP International	Nynas
BP LPG	Oil & Pipelines Agency
BP Oil UK	Pace Fuel Care
BP Marine	Parsons Brinckerhoff (Asia)
BP Oil Europe Distribution	Pemed Limited
BP Exploration	Philips Medical Systems
BP Tanzania	Rohm & Hass
Briggs Oil	Rubis
Caledonian Oil	Scottish Fuels
Carlton Fuels	Shell Aviation
Certas Energy	Shell Marine
Channoil Consultants	Shell Oil Products
CIFL (Channel Islands)	Stanley Services (Falkland Islands)
Daniel Industries	Tag Aviation
Davy Offshore	Triton Petroleum Ltd (Kenya)
Edmund Nuttall	TCIL (Channel Islands)
ELF Oil (GB)	Texaco
EMO Oils	Total UK
ESSO Petroleum	Total Uganda
ExxonMobil	Turner Facilities Management
Gammon Construction (Asia)	UK Construction
Gulf Oil	United Distillers & Vinters
Honeywell Enraf	Vitol Tank Terminals B.V.
James Fisher Defence	Vivo Energy Uganda
Kurrent Technologies Ltd (Kenya)	World Bank

Trident Engineering Consultants

2014 Exhibition Profile

- Bulk Fuel Terminals
- Tank Farms & Depots
- Distribution Systems
- Pipelines
- Ship Off Loading/ Bunkering
- Road Truck Loading/ Unloading
- Rail Car Loading/ Unloading
- Fire Protection Systems
- Terminal Automation
- Tank Gauging
- LPG Storage & Distribution Systems
- Airport Aviation Fuel Systems
- Asset Management & Planned Preventative Maintenance

Pumping system design and installation

Vapour recovery unit (VRU) installation

BP/Shell J.V. Aberdeen Terminal redevelopment showing truck bottom loading facilities

Multi-user additive pressuring pump skid units design and installation

Particular area's of expertise

Bulk Fuel Terminals

Tank Farm & Depots

**Distribution Systems
Pipelines
Ship Off Loading/Bunkering
Road Truck Loading/Unloading
Rail Car Loading/ Unloading**

Fire Protection Systems

**Terminal Automation Tank
Gauging**

**LPG Storage & Distribution
Systems**

Airport Aviation Fuel Systems

SERVICES

Trident offer the following multi-disciplinary services:

Feasibility studies
Front End Engineering Design
Design & Cost Estimates
Programme Planning
Process Design
Procurement
Construction Management
Commissioning
Pipework Isometric Drawings
Turnkey/Design & Build
Environmental Impact Assessment

Stanley Services Ltd, Falkland Islands expansion of storage facilities.

Ross Chemical Storage Co, Grangemouth demolition and construction of 3 new storage tanks and impervious bund

Moshi, Tanzania Terminal re-development

Farnborough Airport New Aviation Tank Farm

Trident Engineering Consultants aim is to provide professional multi-disciplinary engineering services, from concept to construction, comprising Pre-Project studies (Feasibility), Front End Engineering Design (FEED), Estimating, Planning, Detailed Design, Procurement, Cost Control and Project Management to Testing and Commissioning of Plant.

Throughout the Project duration Trident insist upon the integration of high standards of safety and control of environmental impact. In response to Client needs, Trident's operation encompass the culture of Quality Management in accordance with appropriate Quality Assurance requirements to ensure the Project is completed safely, on time and within budget.

FACILITIES

Trident's offices are located close to Glasgow International Airport and are equipped with the very latest CAD draughting systems, email, video conferencing and associated IT infrastructure which enables Trident to provide support to our clients irrespective of their location.
